

FAMILY SAFETY EDITION

Rishta Safety Handbook

A beautiful, practical guide for parents, families, and individuals: protect privacy, verify every proposal, meet safely, and decide with confidence.

Verify first

Confirm identity, family, education, profession, and intent before emotional commitment.

Meet safely

Use public, daytime, family-involved meetings until both sides are fully comfortable.

Pause early

When stories change, pressure appears, or money is requested, stop and re-check.

WEDDME TRUST LAYER

Safer starts before the first conversation.

Weddme adds account-level trust steps so families are not starting from a completely unknown place.

01

Mobile number verification for every user.

02

Email verification when an email is provided.

03

Oath-based accountability before access.

1

Truthful information

Users confirm profile information is accurate to the best of their knowledge.

2

No deception

No cheating, manipulation, fake intent, or misleading behavior.

3

No misuse

No spam, harassment, fraud, or non-marriage purpose.

4

Respectful conduct

Communication must remain responsible, dignified, and family-safe.

5

Marriage-only intent

The stated purpose is finding a life partner for marriage.

6

Consequences accepted

Violation can lead to restriction, suspension, removal, or legal action.

STEP 1

Verify the person, not just the profile.

A polished profile is only the starting point. Real confidence comes from matching details across live conversation, family confirmation, and documents.

ID card

Check CNIC details, previous marriage history, and basic document consistency.

Police check

Ask families to confirm there are no FIR, fraud, or serious complaint concerns.

Family

Involve parents or guardians early. Do not keep the process private.

Do not skip live verification.

If someone avoids video calls or family contact, slow down immediately.

STEP 2

Confirm life details before expectations grow.

Use respectful questions. The purpose is not interrogation; it is clarity for both families.

ED

Education

Degree, institution, graduation year, and future study plans.

WK

Job or business

Cross-check employer, business ownership, role, income claims, and work location.

FM

Family

Parents, siblings, home city, religious expectations, and living arrangements.

BG

Caste background

If caste or community matters to either family, cross-check it respectfully before moving forward.

STEP 3

Keep communication clean and protected.

Privacy safety matters as much as proposal safety. Share slowly, keep family aware, and never let urgency override judgment.

A

Stay organized

Keep early conversations on platform or in family-visible channels.

B

Limit documents

Share sensitive documents only when necessary and with trusted families.

C

No money

Never send fees, gifts, loans, visa payments, or emergency funds to a proposal.

D

Report fast

Save screenshots, stop contact, and report suspicious activity to Weddme.

First meetings should feel safe, visible, and easy to leave.

A respectful family will understand safety boundaries.

STEP 4

Meet with family, in public, during daytime.

1

Choose a public place

Restaurant, family venue, or known community location. Avoid private homes at first.

2

Bring family

At least one trusted family member should be present or nearby.

3

Plan transport

Use your own transport, keep your phone charged, and share location with a trusted contact.

FINAL SAFETY SCREEN

Red flags mean pause, not panic.

If two or more warning signs appear, slow the process and verify everything again before moving forward.

- Requests money, gifts, emergency help, or visa fees.
- Refuses video call or avoids family introduction.
- Documents, age, job, photos, or city details do not match.
- Pushes quick engagement or secrecy from family.
- Only professional photos; no natural or family context.
- Stories keep changing after each conversation.
- Avoids ID, marriage history, or police complaint verification.
- Job, business, caste, or family background cannot be confirmed.

BUILT FOR FAMILIES

Weddme makes the rishta journey easier, safer, and more respectful.

We care about parents, guardians, and serious individuals who want a direct family-to-family marriage platform without unnecessary middlemen, confusion, or pressure.

Find genuine rishta proposals with confidence, care, and family dignity.

- Parent-friendly search designed for serious families.
- Direct family-to-family connection without unnecessary middlemen.
- Privacy-aware profiles with controlled discovery.
- Real-user trust steps with oath and contact verification.
- Zero commission before marriage or after marriage.
- Unlimited profile activity with no artificial caps.
